

Diabetic Student Medical Requirements:

Instruction Sheet

1. Provide your school nurse with a complete **“Diabetes Medical Management Plan/Medication Orders”** from your endocrinologist upon enrollment to the district and EACH new school year. The forms will be provided by the Doctor. Kearny Schools uses the forms from the MD only, there is no “packet “provided by the school.

2. Update your school nurse with new orders if any this changes during the school year.

3. You must provide ALL medications ordered by the doctor, including insulin, hypoglycemia medication such as Glucagon, Baqsimi, etc. All medication must come in original container and must not be expired.

4. You must provide all Diabetic supplies needed:

Ketone strips

Snacks/juice/water

Pump supplies (tubing change) if applicable

Syringes (even if you use pump, please supply insulin and syringes in case of pump failure)

Any other supplies your child requires

5. Please make sure all contact numbers are up to date in Genesis

6. If you are using a DEXCOM please provide an invitation to link with your school nurse and also with Jennifer Mead, Coordinator of Health Services @

jmead@kearnyschools.com

School Nurses utilize iPads in the office to link with your child’s DEXCOM DEVICE
